

Section 1. Identification

CHS Inc.	Transportation	Transportation Emergency (CHEMTREC)				
P.O. Box 64089		Technical Information	:	1-651-355-8443		
Mail station 525 St. Paul, MN 55164-00	39	SDS Information	:	1-651-355-8445		
Product name	: (FO) PARTS SOLVENT # 140-66	SDS no.	:	FO-1322-J12X0		
Common name	: High-flash mineral spirits	Revision date	:	04/22/2015		
Chemical name	: Petroleum Distillate	Chemical formula	:	Mixture		
Chemical family	: Mixture of Paraffinic, Olefinic, Naphthenic, and Aromatic Hydrocarbon					
Relevant identified us	es of the substance or mixture and uses advised against					
Not available.						
	Section 2. Hazards identifi	cation				
OSHA/HCS status	: This material is considered hazardous by the O	SHA Hazard Communication Standar	rd (29 C	FR 1910.1200).		
Classification of the s	ubstance or : ELAMMABLE LIQUIDS - Category 3					

OSHA/HCS status	: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).		
Classification of the substance or mixture	 FLAMMABLE LIQUIDS - Category 3 SKIN CORROSION/IRRITATION - Category 2 SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) - Category 3 AQUATIC HAZARD (ACUTE) - Category 2 AQUATIC HAZARD (LONG-TERM) - Category 2 		
GHS label elements			
Hazard pictograms			
Signal word	: Warning		
Hazard statements	 Flammable liquid and vapor. Causes skin irritation. May cause drowsiness and dizziness. Toxic to aquatic life with long lasting effects. 		
Precautionary statements			
General	: Not applicable.		
Prevention	ear protective gloves. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames ind other ignition sources. No smoking. Use explosion-proof electrical, ventilating, lighting and all material- andling equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Seep container tightly closed. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Void breathing vapor. Wash hands thoroughly after handling.		
Response	Collect spillage. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing. If skin irritation occurs: Get medical attention.		
Storage	: Store locked up. Store in a well-ventilated place. Keep cool.		
Disposal	: Dispose of contents and container in accordance with all local, regional, national and international regulations.		
Hazards not otherwise classified (HNOC)	: None known.		
Hazardous Material Information System	stem (U.S.A.) Health : 1 * Flammability : 2 Physical hazards : 0		
National Fire Protection Associatio	n (U.S.A.) Health : 1 Flammability : 2 Instability : 0		

Section 3. Composition/information on ingredients

Substance/mixture	: Substance
Chemical name	: Petroleum Distillate
Other means of identification	: High-flash mineral spirits
Ingredient name	

Ingredient name	%	CAS number	
Distillates (petroleum), hydrotreated light	60 - 100	64742-47-8	

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

F

Section 4. First aid measures

Description of necessary first aid measu	res		
•	If material comes in contact with the eyes, immediately wash the eyes with large amounts of water for 15		
	minutes, occasionally lifting the lower and upper lids. Get medical attention. If person breathes in large amounts of material, move the exposed person to fresh air at once. If breathing ha		
	stopped, perform artificial respiration. Keep the person warm and at rest. Get medical attention as soon as		
Skin contact :	possible. If the material comes in contact with the skin, wash the contaminated skin with soap and water promptly. If th		
Skill contact .	material penetrates through clothing, remove the clothing and wash the skin with soap and water promptly. If		
	irritation persists after washing, get medical attention immediately.		
Ingestion : Most important symptoms/effects, acute	If material has been swallowed, do not induce vomiting. Get medical attention immediately.		
Potential acute health effects			
	Causes serious eye irritation.		
-	Can cause central nervous system (CNS) depression. May cause drowsiness and dizziness.		
	Causes skin irritation.		
Ingestion :	Can cause central nervous system (CNS) depression. Irritating to mouth, throat and stomach.		
Over-exposure signs/symptoms			
Eye contact :	Adverse symptoms may include the following: pain or irritation, watering, redness.		
Inhalation	Adverse symptoms may include the following: respiratory tract irritation, coughing.		
Skin contact : Adverse symptoms may include the following: irritation, redness.			
Ingestion :	No known significant effects or critical hazards.		
Indication of immediate medical attenti	on and special treatment needed, if necessary		
Notes to physician :	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been inges or inhaled.		
Specific treatments :	No specific treatment.		
Protection of first-aiders :	No action shall be taken involving any personal risk or without suitable training. If it is suspected that fume are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.		
See toxicological information (Section	11)		
	Section 5. Fire-fighting measures		
Extinguishing media			
Suitable extinguishing media	: Use dry chemical, CO ₂ , water spray (fog) or foam.		
Unsuitable extinguishing media	: Do not use water jet or water-based fire extinguishers.		
Specific hazards arising from the chemic			
	heater, electric motor) some distance away. Containers, drums (even empty) can explode when heat (welding, cutting, etc.) is applied.		
Hazardous thermal decomposition produ			
Special protective actions for fire-fighter	S : Water may be ineffective on flames, but should be used to keep fire-exposed containers cool. Water or foam sprayed into container of hot burning product could cause frothing and endanger fire fighters. Large fires, such as tank fires, should be fought with caution. If possible, pump the contents from the tank and keep adjoining structures cool with water. Avoid spreading burning liquid with water used for cooling purposes. Do not flush down public sewers. Avoid inhalation of vapors. Firefighters should wear self-contained breathing apparatus.		
Special protective equipment for fire-fight			

Special protective equipment for fire-fighters

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

: Keep unnecessary and unprotected personnel from entering. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

Methods and materials for containment and cleaning up

Spill

· Contain with diken or chearbort to area

 Contain with dikes or absorbent to prevent migration to sewers/streams. Take up small spill with dry chemical absorbent; large spills may require pump or vacuum prior to absorbent. May require excavation of severely contaminated soil.

Section 7. Handling and storage

Precautions for safe handling	
Protective measures	 Put on appropriate personal protective equipment (see Section 8). Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking.
Conditions for safe storage, including any incompatibilities	: Do not store above the following temperature: 113°C (235.4°F). Odorous and toxic fumes may form from the decomposition of this product if stored at excessive temperatures for extended periods of time. Store in accordance with local regulations. Store in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). Use appropriate containment to avoid environmental contamination.
	Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

Ingredient name		Exposure limits
Distillates (petroleum), hydrotreated light		ACGIH TLV (United States, 3/2012). Absorbed through skin. TWA: 200 mg/m ³ , (as total hydrocarbon vapor) 8 hours.
Appropriate engineering controls : Use only with adequate ventilation.		lation.
Environmental exposure controls	: Emissions from ventilation or requirements of environment	r work process equipment should be checked to ensure they comply with the al protection legislation.
Individual protection measures		
		ace thoroughly after handling chemical products, before eating, smoking and using f the working period. Ensure that eyewash stations and safety showers are close
Eye/face protection	: Recommended: Splash gogg	gles and a face shield, where splash hazard exists.
Skin protection		
Hand protection : 4 - 8 hours (breakthrough time): Nitrile gloves.		
Body protection	: Recommended: Long sleeve	d coveralls.
Other skin protection	: Recommended: Impervious I	boots.
Respiratory protection	: If ventilation is inadequate, u filter.	se a NIOSH-certified respirator with an organic vapor cartridge and P95 particulate

Section 9. Physical and chemical properties

Appearance		Relative density	:	0.8
Physical state	: Liquid.	Evaporation rate	:	>1 (Ether. = 1)
Color	: Clear.	Solubility	:	Insoluble in the following materials: cold water and hot water.
Odor	: Mild hydrocarbon.	Solubility in water	:	Insoluble
Odor threshold	: Not available.	Partition coefficient: n-	:	Not available.
рН	: Not available.	octanol/water		
Melting point	: Not available.	Auto-ignition temperature	:	Not available.
Boiling point	: 192.22 to 205°C (378 to 401°F)	Decomposition temperature	:	Not available.
Flash point	: Closed cup: 60°C (140°F) [Pensky-Martens.]	SADT	:	Not available.
Flammability	: Not available.	Viscosity	:	Not available.

Lower and upper : Lower: 0 explosive (flammable) Upper: 6 limits		Vapor pressure Vapor density	 0.036 kPa (0.27 mm Hg) [room temperature] >1 [Air = 1] 		
Section 10. Stability and reactivity					
Reactivity : No specific test data related to reactivity available for this product or its ingredients. Chemical stability : The product is stable. Possibility of hazardous reactions : Under normal conditions of storage and use, hazardous reactions will not occur.					

Conditions to avoid		Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or
		expose containers to heat or sources of ignition. Do not allow vapor to accumulate in low or confined areas.
Incompatible materials		Reactive or incompatible with the following materials: Strong oxidizing agents.
Hazardous decomposition products	:	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
