

# Allegiant 10357

Allegiant® 10357 VT2P is a 103 day relative maturity corn product with excellent root rating and drought tolerance.

## Key Highlights

- Very good green snap tolerance with a girthy semi-flex ear type
- Better performance in high-yield environments
- Very good disease package and responds to fungicides
- Great yield potential in a fast-drying product

Product Characteristics		
<b>Management</b>	Relative Maturity	103
	GDU to Black	2450
<b>Plant Description</b>	Ear type	SF
	Kernel Rows	16-18
	Cob Color	Red
	Test Weight	4
	Husk Cover	S
	Plant Height	M
<b>Agronomics</b>	Ear Height	M
	Stay Green	5
	Green Snap	4
	Stalk Rating	5
	Root Rating	2
	Early Plant Vigor	5
	Drought Tolerance	3
	Population	M-MH
<b>Disease/Insects</b>	Silage	-
	Gray Leaf	6
	Goss's Wilt	4
	Northern Leaf Blight	4
	Eye Spot	3
	Common Rust	3
	Southern Rust	4
<b>Herbicide Sensitivity</b>	Stalk Anthracnose	5
	Growth Regulator	C
	Pigment Inhibitor	A
	Group 2	A

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer’s Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

Refuge seed may not always contain the DroughtGard® trait. IMPORTANT IRM INFORMATION: Certain products are sold as RIB Complete® corn blend products, and do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. Products sold without refuge in the bag (non-RIB Complete) require the planting of a structured refuge. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Glyphosate will kill crops that are not tolerant to glyphosate. Insect control technology provided by Vip3A is utilized under license from Syngenta Crop Protection AG. DroughtGard®, RIB Complete®, Roundup Ready 2 Technology and Design®, Roundup Ready®, SmartStax®, Trecepta® and VT Double PRO® are registered trademarks of Bayer Group. Herculex® is a registered trademark of Dow AgroSciences LLC. Agrisure Viptera® is a registered trademark of a Syngenta group company. LibertyLink logo® and LibertyLink® are trademarks of BASF Corporation. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association,

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

 Insect Resistance Management Planting Refuges, Assessing Technology	Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, <b>including applicable refuge requirements for insect resistance management</b> , for the biotechnology traits expressed in the seed as set forth in the Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation and agreement to comply with the most recent stewardship requirements.
