

## Allegiant 8432

### Hard Red Spring Wheat

| Product Characteristics         |                      |     |
|---------------------------------|----------------------|-----|
| Product                         | Maturity             | Med |
| Agronomic/Plant Characteristics | Emergence            | 1   |
|                                 | Plant Height         | Med |
|                                 | Standability         | 5   |
|                                 | Yield Potential      | 2   |
|                                 | Test Weight          | 2   |
|                                 | Protein Content      | 4   |
| Disease/Pest                    | Fusarium Head Blight | 5   |
|                                 | Saw Fly              | 8   |

### Key Highlights

- Target area: Northern Plains and Pacific Northwest
- Medium maturity
- Medium plant height
- Medium planting rate
- Superior Hessian fly resistance
- Excellent yield with test weight
