

CENEX TOTAL PROTECTION PLAN®

Protect your new and used equipment
with the best warranty in agriculture.

INDUSTRY-LEADING COVERAGE

OF YOUR MOST VALUABLE EQUIPMENT INVESTMENTS

For generations, agricultural producers have trusted the superior protection and performance of Cenex® Lubricants and Cenex Ruby Fieldmaster® Premium Diesel Fuel, to ensure their critical equipment is ready when it's needed most. Season after season, they've experienced dependable performance and extended equipment life, plus the peace of mind in knowing their operation's most valuable assets are protected.

As you invest in equipment technology for your operation, consider the importance of protecting that significant investment with quality lubricants, fuels and the **Cenex Total Protection Plan®**. This unique warranty program is available for both new and used equipment to extend protection well beyond the original equipment manufacturers' warranty.

The industry's leading warranty program grew from an unwavering commitment to quality and dependability. A protection plan like no other, the Cenex Total Protection Plan ensures that only high-quality energy products are used to give you the power you need to keep your business running like a well-oiled machine.

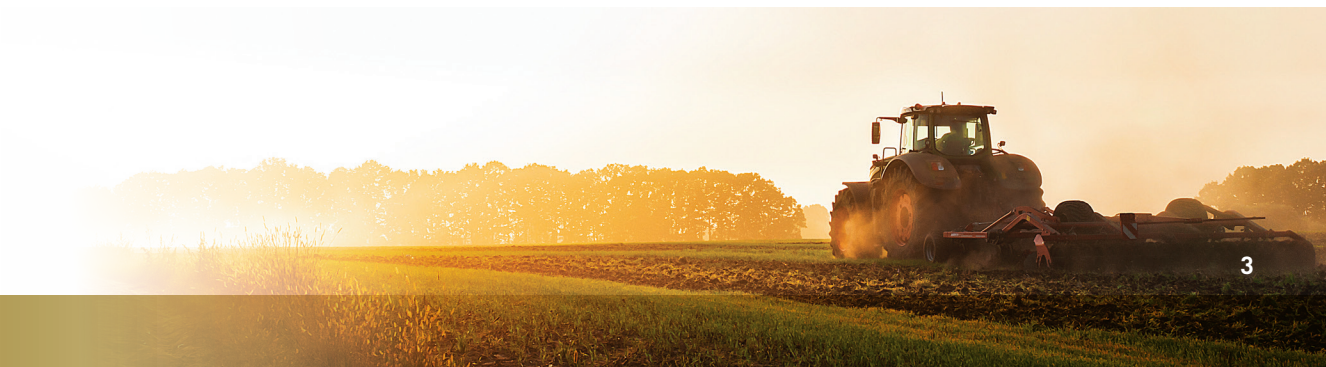

Extend the life of your equipment and protect it for up to 10 years or 10,000 hours with the best warranty in agriculture – the Cenex Total Protection Plan.

A PROTECTION PLAN LIKE NO OTHER

- Covers new equipment for up to 10 years or 10,000 hours and used equipment for up to 8 years or 8,000 hours.
- Extends protection above and beyond original equipment manufacturers' warranties.
- Provides comprehensive protection for just \$799.
- Earns you \$200 of redeemable coupons in eligible Cenex® products upon warranty activation.
- Has no deductible.
- Includes periodic maintenance reminders to help keep your equipment in top condition.
- Helps avoid downtime through LubeScan® Used Oil Analysis fluid sample reports that provide insight into internal equipment condition.
- Can be transferred to purchasers of your equipment.

THE PLAN IS SIMPLE

1. Enroll equipment by visiting TPPWarranty.Cenex.com.
2. Complete the application and submit payment online.
3. Use approved Covered Fluids (exclusively Cenex® products), industry standard filters, and perform required LubeScan Used Oil Analysis sampling.
4. Submit a sample from each covered component's fluid change or drain to LubeScan, at minimum annually or as prescribed. Use the report to help perform timely maintenance and avoid downtime.
5. Retain proofs-of-purchase for all Cenex products.
6. Avoid actions, such as equipment abuse or unauthorized product use, which could void coverage.
7. Follow the *5 Steps to Maintain Coverage* that you will receive in your official Approval Welcome Kit when your warranty is activated to keep your warranty compliant.

UNMATCHED COVERAGE OF YOUR NEW EQUIPMENT INVESTMENTS

Extend the life of your equipment with the best warranty program in agriculture. The Cenex Total Protection Plan® covers specified components of NEW agricultural equipment for up to 10 years or 10,000 hours.

For superior protection and performance, select synthetic oils and get 10 years/10,000 hours of engine coverage when you use Cenex® Maxtron® Enviro-EDGE® or Maxtron DEO lubricants with Cenex® Ruby Fieldmaster® Premium Diesel Fuels.

Conventional oil users can expand engine coverage from 8 years/8,000 hours to 9 years/9,000 hours when approved Cenex Ruby Fieldmaster Premium Diesel Fuels, purchased from an authorized distributor, are used exclusively with Cenex Superlube TMS®.

NEW EQUIPMENT COVERAGE

AGRICULTURAL EQUIPMENT: Tractors (50+ HP)*

Component	Covered Fluid	Warranty Term
Diesel Engine	SYNTHETIC OIL Maxtron® Enviro-EDGE® or Maxtron® DEO	10 years/10,000 hours with Cenex® Ruby Fieldmaster® products up to B20**
		9 years/9,000 hours without Cenex® Ruby Fieldmaster®
	CONVENTIONAL OIL Superlube TMS®	9 years/9,000 hours with Cenex® Ruby Fieldmaster® products up to B20**
		8 years/8,000 hours without Cenex® Ruby Fieldmaster®
Diesel Injection Pump/High Pressure Pump	Cenex® Ruby Fieldmaster® products up to B20**	10 years/10,000 hours with Maxtron® Enviro-EDGE® or Maxtron® DEO 9 years/9,000 hours with Superlube TMS®
Diesel Injectors	Cenex® Ruby Fieldmaster® products up to B20**	5 years/5,000 hours
Transmission/Hydraulics/Final Drive (Common Sump)	OPTION 1 Maxtron® THF+ Qwiklift® HTB® or STOU Fluid	10 years/10,000 hours
		9 years/9,000 hours
Transmission (Separate Sump)	OPTION 2 Maxtron® THF+ Qwiklift® HTB® or STOU Fluid	10 years/10,000 hours
		9 years/9,000 hours
Hydraulics (Separate Sump)	Maxtron® THF+ Qwiklift® HTB®, Indol or STOU Fluid	10 years/10,000 hours
		9 years/9,000 hours
Differential (Separate Sump)	Maxtron® GL or Maxtron® THF+ MP Gear Lube or Qwiklift® HTB®	6 years/6,000 hours
		5 years/5,000 hours
Hydrostats	Maxtron® THF+	10 years/10,000 hours

AGRICULTURAL EQUIPMENT: Sprayers/Floaters (50+ HP)*

Component	Covered Fluid	Warranty Term
Diesel Engine	SYNTHETIC OIL Maxtron® Enviro-EDGE® or Maxtron® DEO	10 years/10,000 hours with Cenex® Ruby Fieldmaster® products up to B20**
		9 years/9,000 hours without Cenex® Ruby Fieldmaster®
	CONVENTIONAL OIL Superlube TMS®	9 years/9,000 hours with Cenex® Ruby Fieldmaster® products up to B20**
		8 years/8,000 hours without Cenex® Ruby Fieldmaster®
Diesel Injection Pump/High Pressure Pump	Cenex® Ruby Fieldmaster® products up to B20**	10 years/10,000 hours with Maxtron® Enviro-EDGE® or Maxtron® DEO 9 years/9,000 hours with Superlube TMS®
Diesel Injectors	Cenex® Ruby Fieldmaster® products up to B20**	5 years/5,000 hours

*Subject to the terms set forth in the Application and Agreement, Agricultural Equipment and Agricultural Irrigation Equipment will not qualify for coverage under the Cenex Total Protection Plan® unless such equipment exclusively uses, throughout the entire coverage period, the Cenex® lubricant product(s) listed in the selected items above and, if applicable, the identified Cenex® diesel product. Components will not qualify for coverage under the Warranty unless the equipment of which they are a part is at least 50 horsepower (HP) or greater.

**Cenex Total Protection Plan® coverage for these Components available through authorized Cenex® Ruby Fieldmaster® distributors only.

Legal Disclaimer: Subject to the terms set forth in the Application and Agreement, Applicant must exclusively use both a Cenex® brand engine oil product listed above and Maxtron® THF+, Qwiklift® HTB® or STOU Fluid to be eligible for the Cenex Total Protection Plan®.

IRRIGATION AGRICULTURAL EQUIPMENT: Irrigation Engines (50+ HP)*

Component	Covered Fluid	Warranty Term
Diesel Engine	Maxtron® Enviro-EDGE®, Maxtron® DEO, or Superlube TMS®	4 years/8,000 hours
Diesel Injection Pump/High Pressure Pump	Cenex® Ruby Fieldmaster® products up to B20**	4 years/8,000 hours
Diesel Injectors	Cenex® Ruby Fieldmaster® products up to B20**	4 years/4,000 hours
Natural Gas/LP Engine	Maxtron® PCMO, Auto Gold®, Irriflex® or NGE0	3 years/7,000 hours

COMBINES:

Component	Covered Fluid	Warranty Term
Diesel Engine	SYNTHETIC OIL Maxtron® Enviro-EDGE® or Maxtron® DEO	8 years/8,000 hours with Cenex® Ruby Fieldmaster® products up to B20**
		7 years/7,000 hour without Cenex® Ruby Fieldmaster®
	CONVENTIONAL OIL Superlube TMS®	7 years/7,000 hours with Cenex® Ruby Fieldmaster® products up to B20**
		6 years/6,000 hours without Cenex® Ruby Fieldmaster®
Diesel Injection Pump/High Pressure Pump	Cenex® Ruby Fieldmaster® products up to B20**	10 years/10,000 hours with Maxtron® Enviro-EDGE® or Maxtron® DEO 9 years/9,000 hours with Superlube TMS®
Diesel Injectors	Cenex® Ruby Fieldmaster® products up to B20**	5 years/5,000 hours

Transmission/Hydraulic System Coverage

Component	Covered Fluid	Warranty Term
Transmission/ Hydraulics (Common Sump)	SYNTHETIC OIL Maxtron® THF+	5 years/5,000 hours
		Hydrostatic System
Transmission (Separate Sump)/Mechanical/ Push Button	CONVENTIONAL OIL Maxtron® 75W-90	5 years/5,000 hours
		Transmission (Separate Sump)
Hydraulics (Separate Sump)	Maxtron® THF+	5 years/5,000 hours
		Transmission/Hydraulics (Common Sump)
Hydrostatic System	Qwiklift® HTB® Qwiklift® HTB® or Hydrostatic Fluid 46 MV	4 years/4,000 hours
		Transmission (Separate Sump)/Mechanical/ Push Button
Transmission (Separate Sump)	MP 80W-90 GL Qwiklift® HTB®	4 years/4,000 hours
		Hydraulics (Separate Sump)
Hydraulics (Separate Sump)	Qwiklift® HTB® or Hydrostatic Fluid 46 MV	4 years/4,000 hours

NEW EQUIPMENT APPLICATION AND APPROVAL PROCESS

NEW EQUIPMENT WARRANTY

Application Qualifiers

- Equipment used solely for agriculture
- Has a diesel engine with 50 horsepower or greater
- Has less than 200 hours of service
- Is no more than 6 months from acquisition

Irrigation Agricultural Equipment:

- Has less than 750 hours of service
- Is no more than 60 days from acquisition

Application Process

1. Complete and sign the New Equipment Warranty Application and Agreement of Responsibility online at TPPWarranty.Cenex.com.
2. Submit payment via the online platform. *CHS reserves the right, in its sole discretion, to approve or disapprove any Application and Agreement submitted for approval.*
3. CHS will review your Application and Agreement and notify you if it is approved by sending you an Approval Welcome Kit detailing your coverage and containing tools to assist you in maintaining your warranty coverage. A unique Warranty number will be assigned for use in identifying oil samples and to expedite related correspondence.

WARRANTY TRANSFER

Transferring Coverage

Agricultural equipment* currently covered under the Cenex Total Protection Plan® warranty can be transferred when there is more than 12 months remaining in the warranty term, and all prior operator responsibilities have been fulfilled.

Several requirements are necessary for the warranty to be transferred to a new operator who either owns (or leases) and operates eligible equipment within the CHS Energy trade territory.

Transferee must complete the Transfer Warranty Application for the transferred equipment. Application must be submitted online within 30 days of acquisition. The operator must fully comply with obligations outlined in the Agreement of Responsibility found in the New Transfer Application. Coverage is limited to the original warranty term. If fluid samples are requested, all samples must be supplied within 60 days of the equipment acquisition to remain eligible for the warranty transfer.

*Warranties on Irrigation Agricultural Equipment are not transferable.

WARRANTY PROTECTION

FOR YOUR USED EQUIPMENT YOU CAN'T GET ANYWHERE ELSE

The only program of its kind in agriculture, the Cenex Total Protection Plan® USED Equipment Warranty covers specified components of covered agricultural tractors, and combines up to 8 years or 8,000 hours.

The Cenex Total Protection Plan Used Equipment Warranty gives you peace of mind knowing your critical equipment is protected.

USED EQUIPMENT COVERAGE

STANDARD COMPONENT COVERAGE: Tractors (50+ HP)*

Component	Covered Fluid	Warranty Term
Diesel Engine	Maxtron® Enviro-EDGE®, Maxtron® DEO, or Superlube TMS®	8 years/8,000 hours
Diesel Injection Pump/ High Pressure Pump	Cenex® Ruby Fieldmaster® products up to B20**	8 years/8,000 hours

EXPANDED COMPONENT COVERAGE: Tractors (50+ HP)*

(50+ HP diesel tractors under 2 years old, based on manufacture date, with less than 2,000 hours are eligible)

Component	Covered Fluid	Warranty Term
Diesel Injectors	Cenex® Ruby Fieldmaster® products up to B20**	5 years/5,000 hours
Transmission/ Hydraulics/Final Drive (Common Sump)	OPTION 1 Maxtron® THF+, Qwiklift® HTB®, or STOU Fluid	8 years/8,000 hours
Transmission (Separate Sump)	OPTION 2 Maxtron® THF+, Qwiklift® HTB® or STOU Fluid	8 years/8,000 hours
Hydraulics (Separate Sump)	Maxtron® THF+, Qwiklift® HTB® or STOU Fluid	8 years/8,000 hours
Differential (Separate Sump)	Maxtron® GL or Maxtron® THF+	6 years/6,000 hours
	MP Gear Lube or Qwiklift® HTB®	5 years/5,000 hours
Hydrostats	Maxtron® THF+	8 years/8,000 hours

STANDARD COMPONENT COVERAGE: Combines*

Component	Covered Fluid	Warranty Term
Diesel Engine	Maxtron® Enviro-EDGE®, Maxtron® DEO or Superlube TMS®	7 years/7,000 hours
Diesel Injection Pump/ High Pressure Pump	Cenex® Ruby Fieldmaster® products up to B20**	8 years/8,000 hours
Diesel Injectors	Cenex® Ruby Fieldmaster® products up to B20**	5 years/5,000 hours

EXPANDED COMPONENT COVERAGE: Combines*

(Combines under 2 years old, based on manufacture date, with less than 2,000 hours are eligible)

Component	Covered Fluid	Warranty Term
Transmission/ Hydraulics (Common Sump)	Maxtron® THF+ or Qwiklift® HTB®	4 years/4,000 hours
Hydrostatic System	Qwiklift® HTB®, Maxtron® THF+, Hydrostatic Fluid 46 MV	4 years/4,000 hours
Transmission (Separate Sump)/Mechanical/ Push Button	Maxtron® 75W-90 GL, MP 80W-90 GL	4 years/4,000 hours
Transmission (Separate Sump)	Maxtron® THF+ or Qwiklift® HTB®	4 years/4,000 hours
Hydraulics (Separate Sump)	Maxtron® THF+, Qwiklift® HTB®, Hydrostatic Fluid 46 MV	4 years/4,000 hours

Coverage Length

Equipment is covered until it reaches specified years in service from date of manufacture, or it accumulates specified hours, whichever occurs first.

For example, for 8 years/8,000 hours of coverage, if your equipment has accumulated 2 years and 1,400 hours, the remaining coverage is 6 years or 6,600 hours.

IMPORTANT: The used equipment plan requires two approved LubeScan® Used Oil Analysis fluid samples within 24 months to verify equipment is in good condition before the plan is activated.

Please note: The use of Cenex® Ruby Fieldmaster® Premium Diesel Fuels includes the use of Cenex Ruby Fieldmaster Seasonally Enhanced and Cenex Wintermaster®.

Winter-blending Ruby Fieldmaster:

Cenex Total Protection Plan® holders are required to use #1 Cenex Ruby Fieldmaster when blending with Ruby Fieldmaster for seasonal purposes. The use of an untreated #1 distillate with Ruby Fieldmaster may void your coverage.

*Subject to the terms set forth in the Application and Agreement, Agricultural Equipment will not qualify for coverage under the Cenex Total Protection Plan® unless such equipment exclusively uses, throughout the entire coverage period, the Cenex® lubricant product(s) listed in the selected items above and, if applicable, the identified Cenex® diesel product. Components will not qualify for coverage under the Warranty unless the equipment of which they are a part is at least 50 horsepower (HP) or greater.

**Cenex Total Protection Plan® coverage for these Components available through authorized Cenex® Ruby Fieldmaster® distributors only.

USED EQUIPMENT APPLICATION AND APPROVAL PROCESS

USED EQUIPMENT WARRANTY

Application Qualifiers

- Equipment used solely for agriculture
- Does not meet the requirements of “NEW”
- Has less than 8 years and 8,000 hours of service (Tractor) or 7 years and 7,000 hours (Combines)*
- Has a diesel engine with 50 horsepower or greater

Coverage Levels Eligibility:

Used Equipment **Standard Component Coverage:**
Up to 8 years old from date of manufacture or 8,000 hours, whichever comes first*

Used Equipment **Expanded Component Coverage:**
Up to 2 years old from date of manufacture or 2,000 hours, whichever comes first

Application Process

1. Complete and sign the Used Equipment Warranty Application and Agreement of Responsibility online at TPPWarranty.Cenex.com.
2. Arrange for an authorized Cenex® representative from your authorized distributor to:
 - Assist you completing an identification inspection of the equipment to be covered, and include a LubeScan® Used Oil Analysis engine oil sample for submission to CHS. If applicable, also submit LubeScan samples for the transmission and/or hydraulics if applying for Expanded Component Coverage. LubeScan Used Oil Analysis sampling kits are available from your authorized Cenex distributor.
 - Verify date of manufacture of equipment and accumulated operating hours.
3. Submit payment via the online platform. CHS reserves the right, in its sole discretion, to approve or disapprove any Application and Agreement submitted for approval.
4. CHS will test and analyze the fluid sample. If no evidence of mechanical defects in lubricated-covered components is detected,

the equipment will begin a 100-hour screening period during which the equipment operator agrees to:

- Replace all applicable Covered Fluids with approved Cenex products.
 - Operate the covered equipment in normal operating conditions.
 - Submit a second engine oil and/or transmission/hydraulic fluid sample(s) following the 100-hour screening period to CHS for analysis.
5. CHS will review the second set of fluid samples along with the Application and Agreement and notify you if the second set of fluid samples are approved by sending you an Approval Welcome Kit detailing your coverage and tools for maintaining warranty coverage. A unique Warranty number will be assigned for use in identifying oil samples and to expedite related correspondence.

WARRANTY TRANSFER

Transferring Coverage

Agricultural equipment currently covered under the Cenex Total Protection Plan® warranty can be transferred when there is more than 12 months remaining in the warranty term, and all prior operator responsibilities have been fulfilled.

Several requirements are necessary for the warranty to be transferred to a new operator who either owns (or leases) and operates eligible equipment within the CHS Energy trade territory.

Transferee must complete the Transfer Warranty Application for the transferred equipment. Application must be submitted online within 30 days of acquisition. The operator must fully comply with obligations outlined in the Agreement of Responsibility found in the Transfer Warranty Application. Coverage is limited to the original warranty term.

THE CENEX TOTAL PROTECTION PLAN®

KEEPS EQUIPMENT RUNNING SO YOU CAN KEEP WORKING

Through the Cenex Total Protection Plan®, CHS will pay costs on covered components according to the **Claim Payment Schedule**, including installation and labor, to repair or replace faulty parts that fail during normal use.

Claim Payment Schedule	
Years on Warranty*	Payment % Eligible
Day 1 to 2 years	100%
2 years + 1 day to 4 years	90%
4 years + 1 day to 6 years	80%
6 years + 1 day to 8 years	70%
8 years + 1 day to 10 years	60%

New Equipment Claim Payment Schedule:

Day 1 of your warranty begins on the **date of acquisition** of your eligible new equipment. Your total claim payment eligibility is determined by the date in which you submit your claim from your equipment acquisition date.

Used Equipment Claim Payment Schedule:

The **manufacture date** serves as Day 1 for all time references. Your warranty is not active until all activities to apply have been met and comply with Used Equipment Warranty requirements. The claim payment schedule uses the date of manufacture as Day 1 and when the claim is made to determine total payment eligibility.

Transferred Equipment Claim Payment Schedule:

All transferred warranties follow the original owner warranty (see definitions for New or Used Warranty above). Once a transferred warranty has been successfully moved to the new owner and has met the transfer requirements, it is deemed active and will follow the original equipment owners claim and Day 1 parameters as outlined above for New or Used Warranty.

**For new equipment reference the date of acquisition, for used equipment reference the manufacture date, as noted in the text above.*

DIESEL ENGINE COVERAGE

Coverage limited to the internal lubricated parts.

NEW EQUIPMENT – TRACTOR, SPRAYER/FLOATER AND COMBINE

Covered: Rocker arm shaft, cylinder liner, valve lifter, push rods, pistons, rings, wrist pins, connecting rod and crankshaft, camshaft and bearings, timing gear.

Not Covered: Cylinder head assembly, valves/valve guides, oil pump and oil cooler, engine block, oil seals, oil filters, turbocharger, non-lubricated parts, external parts such as vibration dampener, and hydraulic fan motors.

USED EQUIPMENT – TRACTOR AND COMBINE

Covered: Rocker arm shaft, cylinder liner, valve lifter, push rods, pistons, rings, wrist pins, connecting rod and crankshaft, camshaft and bearings, timing gear.

Not Covered: Cylinder head assembly, valves/valve guides, oil pump and oil cooler, engine block, oil seals, oil filters, turbocharger, non-lubricated parts, external parts such as vibration dampener, and hydraulic fan motors.

DIESEL FUEL INJECTION PUMP/HIGH PRESSURE PUMP AND INJECTORS

Covered: Diesel injection pump and high pressure pump and injectors.

Not Covered: Fuel lines, filters, couplers, connectors, and water separators.

TRANSMISSION, HYDRAULICS, FINAL DRIVE, AND DIFFERENTIAL – TRACTOR

Covered: Gears, shafts, bearings, wet clutches, oil-immersed wet brake and clutch facing, hydraulic pumps, hydrostatic pump, and valves.

Not Covered: Auxiliary equipment, including added implements and their associated valves and pumps, bogie and idler wheels, reaction/torsion arms, hydraulic lines, hydraulic fan motors, hubs, couplers, oil coolers, cab/seating, and steering hydraulics.

TRANSMISSION AND HYDRAULIC SYSTEM – COMBINE

Covered: Gears, shafts, bearings, bushings, wet clutches, clutch facing, hydraulic pumps, hydraulic valves, and hydrostatic pump.

Not Covered: Final drive, differential, hubs, axle, and all gearboxes including elevator, feeder house, header, knife, traction, separator, rotor, and unloader gearboxes, power steering hydraulics, brake system, cab hydraulic system, hydraulic lines and couplers, oil coolers, oil seals, and hydraulic fan motors.

**Sprayers/floaters are only eligible for coverage under the New Equipment Warranty.*

Note: Any parts not listed in the Covered section listed above are not covered under warranty.

FREQUENTLY ASKED QUESTIONS

1. How often do I submit used fluid samples for each component?

A: For all components listed, used fluid samples shall be submitted at minimum annually. In addition, follow these requirements for submitting used fluid samples:

Engine: Submit used fluid sample at each oil change or drain

Transmission/Hydraulics/Final Drive

(common sump): Submit used fluid sample every 300 hours

Transmission only: Submit used fluid sample every 300 hours

Hydraulics only: Submit used fluid sample every 300 hours

Differentials: Submit used fluid sample annually

All other covered components: Excluding fuel-related components, submit a used fluid sample annually

2. Where do I submit these fluid samples?

A: Use the pre-printed ALS labels from your Approval Welcome Kit, on your Sample Identification Form (included with official LubeScan® Used Oil Analysis sample kits available from your authorized Cenex® distributor) when submitting samples to ALS Tribology to ensure that your LubeScan sample is processed correctly. Mail your filled sample container with correctly labeled and completed Sample Identification Form, and using a black mailing canister and/or mailing sleeve, to ALS Tribology lab: LubeScan, 935 Sunshine Road, Kansas City, KS, 66115-1122. Download the user-friendly ALS Webtrieve™ Mobile app for faster sample entry.

3. Can the warranty transfer?

A: Agricultural equipment* currently covered under the Cenex Total Protection Plan® warranty can transfer when there is more than 12 months remaining in the warranty term. Several requirements are necessary for the warranty to be transferred to a new operator who either owns (or leases) and operates eligible equipment located within the CHS Energy trade territory. The Transfer Warranty Application must be completed online within 30 days of acquisition. The operator must fully comply with obligations outlined in the Agreement of Responsibility found in the Warranty Application.

4. How do I make a claim?

A: Before making a claim, contact the distributor where you purchased the Cenex lubricants and Cenex Ruby Fieldmaster® Premium Diesel Fuel products used in the covered equipment. When a covered component shows signs of failure, a used oil sample and/or fuel sample are to be submitted using a LubeScan Used Oil Analysis kit or appropriate fuel kit container to CHS. Samples must be submitted before repair work is initiated. It is important to retain all replaced parts should your claim need additional review during the claims process, CHS Technical Services may inspect failed or replaced parts. After the claim, repaired components must be refilled with Cenex Covered Fluids to ensure continued warranty coverage. A warranty holder must submit an invoice for the claim within 90 days from final invoice date.

5. Does the new coverage and claim pay schedule affect my previous or existing warranty?

A: All TPP Warranties uphold the terms and conditions accepted at the time of sign-up. The new warranty coverage and claim pay schedule outlined in this brochure applies to all warranties purchased on or after Sept. 1, 2024.

"I've been recommending it to everybody I do business with and come in contact with for the last several years, if they don't do it that's their own fault. It gives you peace of mind and helps you sleep at night."

— Darrell Hylok, Pulaski, Wis.

"It's a great program, and it's not hard to do."

— Jim Quandt, Oakes, N.D.

"It's been an awesome program for us, we've used it three times in the last 12 years, so it definitely has a lot of value, and it's product we need anyways, so it's a relatively cheap insurance."

— Brent Krohn, Nicollet, Minn.

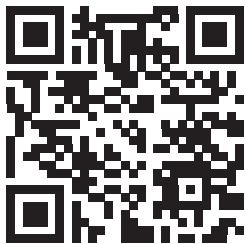

INCREASE YOUR UPTIME WITH CENEX®

You can count on Cenex® to keep your equipment running at peak performance, even under the toughest conditions. Independent tests show that using Cenex premium lubricants and premium diesel fuels can help extend engine life and reduce downtime.

Cenex lubricants are custom formulated to meet or exceed all major manufacturers' requirements and are industry certified to meet the demands of farming. Additionally, Cenex Ruby Fieldmaster® Premium Diesel Fuel provides a more complete burn to keep fuel and exhaust systems clean, increasing power and efficiency with fewer repairs and more uptime.
