

1. Identification		
Product identifier	Redline 6-12-2	
Other means of identification	Not available.	
Recommended use	Starter fertilizer.	
Recommended restrictions	None known.	
Manufacturer / Importer / Supplier / Distributor Information		
Company name	CHS Inc.	
Address	5500 Cenex Drive	
	Inver Grove Heights, MN 55077 US	
Telephone	1.651.355.6000	
Website	www.chsinc.com	
Contact person	EH&S/Regulatory Department	
Emergency phone number	CHEMTREC (24 hours): 1-800-424-9300	
2. Hazard(s) identification		
Physical hazards	Not classified.	
Health hazards	Not classified.	
OSHA defined hazards	Not classified.	
Label elements		
Hazard symbol	None.	
Signal word	None.	
Hazard statement	The mixture does not meet the criteria for classification.	
Precautionary statement		
Prevention	Observe good industrial hygiene practices.	
Response	Wash hands after handling.	
Storage	Store away from incompatible material.	
Disposal	Dispose of waste and residues in accordance with local authority requirements.	
Hazard(s) not otherwise classified (HNOC)	Not classified.	

## Supplemental information

Not applicable.

## **<u>3. Composition/information on ingredients</u>**

Mixtures		
Chemical name	CAS number	%
Ammonium Polyphosphate	68333-79-9	35 - 55
Water	7732-18-5	25 - 35
Zinc-diammonium EDTA Complex	67859-51-2	1 - 10
*Proprietary	*Proprietary	1 – 5
Urea	57-13-6	1 – 5

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

Composition comments	The Safety Data Sheet is not a guarantee of product specification or NPK value(s). NPK content is on specified sales orders, customer invoices, or product specification sheets obtained from supplier.
4. First-aid measures	
Eye contact	Check for and remove contact lenses. Flush immediately with copious amounts of water or normal saline (minimum of 15 minutes), holding eyelids apart to ensure complete irritation of the eye and eyelid tissue. Take exposed individual to a health care professional, preferably an opthalmologist, for further evaluation.
Skin contact	Remove contaminated clothing, shoes and equipment. Wash exposed area with plenty of soap and water. Repeat washing. If redness or irritation occurs, seek medical attention. Wash contaminated clothing before reuse.
Inhalation	No adverse effects anticipated. If necessary, remove victim to fresh air and loosen clothing. Get medical attention.
Ingestion	Rinse mouth thoroughly. Drink 1 or 2 glasses of water. Do not induce vomiting without advice from poison control center. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical attention.
Most important symptoms/effects, acute and delayed	Prolonged or repeated skin contact may cause irritation.
Indication of immediate medical attention and special treatment needed	Treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.
5. Fire-fighting measures	
Suitable extinguishing media	Water fog. Water spray. Carbon dioxide (CO <sub>2</sub> ). Foam.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	The product is not flammable. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing should be worn when fighting chemical fires. Selection of respiratory protection for firefighting follow the general fire precautions indicated in the workplace.
Fire-fighting equipment/instructions	Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from the fire area if you can do so without risk. In the event of fire, cool tanks with water spray.
Specific Methods	Use water spray to cool unopened containers.
6. Accidental release measures	
Personal precautions, protective equipment and emergency procedures	Avoid inhalation of vapors and spray mist and contact with skin and eyes. Wear suitable protective clothing. For personal protection see Section 8 of the SDS.

emergency procedures

Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb with vermiculite, dry sand or earth and place into containers. After removal flush contaminated area thoroughly with water.	
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.	
	Never return spills to original containers for re-use.	
Environmental precautions	Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers or watercourses.	
7. Handling and storage		
Precautions for safe handling	Avoid inhalation of vapors/spray and contact with skin and eyes. Use only with adequate ventilation. Observe good industrial hygiene practices.	

Conditions for safe storage,	Keep container tightly closed. Store in a cool, dry well-ventilated place. Store away from
including any incompatibilities	incompatible materials.

## 8. Exposure controls/personal protection

Occupational exposure limits		
Biological limit values	No biological exposure limits noted for the ingredient(s).	
Exposure guidelines	Follow standard monitoring procedures.	
Appropriate engineering controls	Provide adequate general and local exhaust ventilation. Observe Occupational Exposure Limits and minimize the risk of inhalation of vapors and mists.	
Individual protection measures s	such as personal protective equipment	
Eye/face protection	Wear approved safety glasses or goggles.	
Skin Protection Hand protection	Chemical resistant gloves are recommended. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier.	
Other	Wear appropriate clothing to prevent repeated or prolonged skin contact.	
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Wear air supplied respiratory protection if exposure concentrations are unknown. In case of inadequate ventilation or risk of inhalation of vapors use suitable respiratory equipment. In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA 29 CFR 1910.134 and ANSI Z88.2.	
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.	
General hygiene consideration	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Handle in accordance with good industrial hygiene and safety practice.	

## 9. Physical and chemical properties

Appearance	
Physical State	Liquid.
Form	Liquid.
Color	Red.
Odor	Slight odor.
Odor threshold	Not available.
рН	6.0 - 6.8
Melting point/freezing point	$< 15^{\circ}$ F do not store below this temperature.
Initial boiling point and boiling	Not available.
range	
Flash point	Not flammable.
Evaporation Rate	Not available.
Flammability (solid, gas)	Not available.
Vapor pressure	Not available.
Vapor Density (Air=1)	Not available.
Relative density	1.206 g/ml
Solubility	Completely miscible.
Partition coefficient	Not available.
(n-octanol/water)	
Auto-ignition temperature	Not available.
Viscosity	Not available.
Other information	Not available.
<b>10. Stability and reactivity</b>	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Stable under normal temperature conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Heat. Extreme temperatures. Contact with incompatible materials.
Incompatible materials	Strong acids. Reactive metals.
Hazardous decomposition products <u>11. Toxicological information</u>	Nitrogen oxides (NO <sub>x</sub> ). Ammonia. Potassium oxides.
Information on likely routes of expo	sure
Ingestion	May cause discomfort if swallowed.
Inhalation	In high concentrations, vapors may be irritating to the respiratory system.
Skin contact	Prolonged or repeated skip contact may cause irritation

Skin contact Eye contact	Prolonged or repeated skin contact may cause irritation. May cause eye irritation on direct contact.
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.
Information on toxicological effects	
Acute toxicity	May cause discomfort if swallowed.
Skin corrosion/irritation	Prolonged exposure may cause skin irritation.
Serious eye damage/eye irritation	May cause eye irritation on direct contact.

Respiratory sensitization	Based on available data; the classification criteria are not met.
Skin sensitization	Not a skin sensitizer.
Germ cell mutagenicity	Based on available data; the classification criteria are not met.
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
Reproductive toxicity	Based on available data; the classification criteria are not met.
Specific target organ toxicity- single exposure	In high concentrations, vapors may be irritating to the respiratory system.
Specific target organ toxicity- repeated exposure	Based on available data, the classification criteria are not met.
Aspiration hazard	Based on available data; the classification criteria are not met.
Chronic effects	Prolonged exposure may cause chronic effects.
Further information	No other specific acute or chronic health impact noted.
<b>12. Ecological information</b>	
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	This substance will promote algae growth which may degrade water quality and taste.
Bioaccumulative potential	No data available for this product.
Bioaccumulative potential Mobility in soil	No data available for this product. This product is water soluble and may disperse in soil.
_	
Mobility in soil	This product is water soluble and may disperse in soil. No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this
Mobility in soil Other adverse effects	This product is water soluble and may disperse in soil. No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this
Mobility in soil Other adverse effects <u>13. Disposal considerations</u>	This product is water soluble and may disperse in soil. No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. Do not allow this material to drain into sewers/water supplies. Dispose in accordance with

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

## **15. Regulatory information**

### **US federal regulations**

This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) Not regulated. US OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050) Not listed. CERCLA Hazardous Substance List (40 CFR 302.4) Not listed

Not applicable.

## Superfund Amendments and Reauthorization Act of 1986 (SARA)

Hazard categories	Immediate Hazard - No Delayed Hazard - No Fire Hazard - No Pressure Hazard - No Reactivity Hazard – No
SARA 302 Extremely hazardous substance	No
SARA 311/312 Hazardous chemical	No
SARA 313 (TRI reporting) Not regulated	

## Other federal regulations

## Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List Not regulated. Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) Not regulated.

Not regulated.

Food and Drug Administration (FDA) Not regulated.

**US state regulations** 

This product does not contain a chemical known to the State of California to cause cancer, birth defects or other reproductive harm.

Yes

US Massachusetts RTK – Substance List Not regulated US New Jersey Worker and Community Right-to-Know Act Not regulated US Pennsylvania RTK – Hazardous Substances Not regulated US Rhode Island RTK Not regulated

**US California Proposition 65** US - California Proposition 65 - Carcinogens & Reproductive Toxicity (CRT): Listed substances Not listed

## **International Inventories**

Country(s) or region	
United States & Puerto Rico	

Inventory name Toxic Substances Control Act (TSCA) Inventory

On inventory (yes/no)\*

\*A "Yes" indicates this product complies with the inventory requirements administered by the governing country(s). A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

Preparation	The preparation of this MSDS was in accordance with ANSI Z400.1-2010.
Disclaimer	NOTICE: The information presented herein is based on data considered to be accurate as of the date
	of preparation of this Safety Data Sheet (SDS) and was prepared pursuant to Government
	regulation(s) that identify specific types of information to be provided. This SDS may not be used as a commercial specification sheet of manufacturer or seller, and no warranty or representation, expressed
	or implied, is made as to the accuracy or comprehensiveness of the foregoing data and safety
	information, nor is any authorization given or implied to practice any patented invention without a license. Additional information may be needed to evaluate other uses of the product, including use of
	the product in combination with any materials or in any processes other than those specifically
	referenced. Information provided herein with respect to any hazards that may be associated with the product is not meant to suggest that use of the product in a given application will necessarily result in
	any exposure or risk to workers or the general public. No responsibility can be assumed by vendor for
	any damage or injury resulting from abnormal use, from any failure to adhere to recommended
	practices, or from any hazards inherent in the nature of the product. Purchasers and users assume all risk of use, storage and handling of the product in compliance with applicable federal, state and local
	laws and regulations. Purchasers and users of the product specifically should advise all of their
	employees, agents, contractors and customers who will use the product of this (M)SDS.
