

Safety Data Sheet

1. Identification

Product identifier Soyshot®
Other means of identification 0-10-10 Starter.
Synonyms None.
Recommended use Starter Fertilizer.
Recommended restrictions None known.

Manufacturer / Importer / Supplier / Distributor Information

Company name CHS Inc
Address 5500 Cenex Drive
Inver Grove Heights, MN 55077 US
Telephone 1-651-355-6000
Website www.chsinc.com
Contact person EH&S/Regulatory Department
Emergency phone number CHEMTREC (24 hours): 1-800-424-9300

2. Hazard(s) identification

Physical hazards Not classified.
Health hazards Skin corrosion/irritation. Category 2
Serious eye damage/eye irritation. Category 2B
Specific target organ toxicity, single exposure. Category 3 respiratory tract irritation
OSHA defined hazards Not classified.

Label elements

Signal word Warning.
Hazard statement Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation.

Precautionary statement

Prevention Avoid breathing mist/vapors/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear eye/face protection.
Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell.
Storage Store in a well-ventilated place. Keep container tightly closed. Store locked up.
Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) Not classified.

Environmental hazards Hazardous to the aquatic environment, acute Category 2

Safety Data Sheet

Avoid release to the environment.

Supplemental information
Precautionary statement
Prevention

3. Composition/information on ingredients

Mixtures

Chemical name	CAS number	%
Potassium hydroxide	1310-58-3	35 – 50
Phosphoric acid	7664-38-2	30 – 35
Water	7732-18-5	10 – 15
*Proprietary	*Proprietary	1 - 5

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

Composition comments

Components will have dissociated into ions resulting in a product with a near neutral pH. All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

This Safety Data Sheet is not a guarantee of product specification or NPK value(s). NPK content is on specified sales orders, customer invoices, or product specification sheets obtained from supplier.

4. First-aid measures

Eye contact

Check for and remove contact lenses. Flush immediately with copious amounts of water or normal saline (minimum of 15 minutes), holding eyelids apart to ensure complete irrigation of the eye and eyelid tissue. Take exposed individual to a health care professional, preferably an ophthalmologist, for further evaluation.

Skin contact

Remove contaminated clothing, shoes and equipment. Immediately flush skin with plenty of water. Repeat washing. If redness or irritation occurs, seek medical attention. Wash contaminated clothing before reuse.

Inhalation

Move person to fresh air and loosen clothing. If the affected person is not breathing, apply artificial respiration. Get medical attention immediately.

Ingestion

Rinse mouth thoroughly. Drink 1 or 2 glasses of water. Do not induce vomiting without advice from poison control center. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical attention.

Most important symptoms/effects, acute and delayed

Irritant effects. Discomfort in the chest. Shortness of breath. Coughing. Symptoms include itching, burning, redness, and tearing of eyes. Prolonged or repeated skin contact may cause drying, cracking, or irritation. Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting. Inhalation of vapor or mists may cause lung edema.

Indication of immediate medical attention and special treatment needed

Treat symptomatically.

General information

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

5. Fire-fighting measures

Suitable extinguishing media

Water fog. Water spray. Carbon dioxide (CO₂). Foam.

Unsuitable extinguishing media Specific hazards arising from the chemical

Do not use water jet as an extinguisher, as this will spread the fire.

Heating may cause the release of phosphorus oxides, potassium oxides and carbon dioxide.

Safety Data Sheet

Special protective equipment and precautions for firefighters

Self-contained breathing apparatus and full protective clothing should be worn when fighting chemical fires. Selection of respiratory protection for firefighting follow the general fire precautions indicated in the workplace.

Fire-fighting equipment/instructions

Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from the fire area if you can do so without risk.

Specific methods

Use water spray to cool unopened containers.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Avoid inhalation of vapors and spray mist and contact with skin and eyes. Wear suitable protective clothing. For personal protection see Section 8 of the SDS.

Methods and materials for containment and cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb with vermiculite, dry sand or earth and place into containers. After removal flush contaminated area thoroughly with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers or watercourses.

7. Handling and storage

Precautions for safe handling

Avoid inhalation of vapors/spray and contact with skin and eyes. Use only with adequate ventilation. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store in a cool, dry well-ventilated place. Keep container tightly closed. Keep this material away from food, drink and animal feed. Avoid using containers, pipes and fittings made of zinc-clad or copper bearing alloys. Use care in handling/storage.

8. Exposure controls/personal protection

Occupational exposure limits

No exposure limits noted for ingredient(s).

Biological limit values

No biological exposure limits noted for the ingredient(s).

Exposure guidelines

Follow standard monitoring procedures.

Appropriate engineering controls

Provide adequate general and local exhaust ventilation. Observe Occupational Exposure Limits and minimize the risk of inhalation of vapors and mists. Provide eyewash station and safety shower.

Individual protection measures such as personal protective equipment

Eye/face protection

Wear approved safety glasses or goggles.

Skin Protection

Hand protection

Neoprene gloves are recommended. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier.

Other

Wear appropriate clothing to prevent repeated or prolonged skin contact.

Safety Data Sheet

Respiratory protection

If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Wear air supplied respiratory protection if exposure concentrations are unknown. In case of inadequate ventilation or risk of inhalation of mist, use suitable respiratory equipment with particle filter.

In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA 29 CFR 1910.134 and ANSI Z88.2.

Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

General hygiene consideration

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Handle in accordance with good industrial hygiene and safety practice.

9. Physical and chemical properties

Appearance	Clear liquid
Physical State	Liquid.
Form	Liquid.
Color	Reddish brown..
Odor	Odorless.
Odor threshold	Not available.
pH	7.0 – 7.5
Melting point/freezing point	-1F°.
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation Rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability	
Flammability limit- lower (%)	Not available.
Flammability limit- upper (%)	Not available.
Vapor pressure	Not available.
Vapor Density (Air=1)	Not available.
Relative density	1.22 @ 60°F.
Solubility(ies)	Completely soluble.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

10. Stability and reactivity

Reactivity	The product is stable and non reactive under normal conditions of use storage and transport.
Chemical stability	Stable under normal temperature conditions and recommended use.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Heat. Extreme temperatures.
Incompatible materials	Strong acids. Reactive metals.
Hazardous decomposition products	Phosphorus oxides. Potassium oxides. Carbon dioxide.

Safety Data Sheet

11. Toxicological information

Information on likely routes of exposure

Ingestion May be harmful if swallowed.
Inhalation Vapors and spray mist may irritate throat and respiratory system and cause coughing.
Skin contact Prolonged or repeated skin contact may cause irritation.
Eye contact Causes serious eye irritation on direct contact.

Symptoms related to the physical, chemical and toxicological characteristics Irritant effects. Symptoms include itching, burning, redness and tearing of eyes. Prolonged or repeated skin contact may cause drying, cracking, or irritation. Discomfort in the chest. Shortness of breath. Coughing. Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting. Inhalation of vapor or mist may cause lung edema.

Information on toxicological effects

Acute toxicity May be harmful if swallowed.

Components	Species	Test Results
Phosphoric acid (CAS 7664-38-2) Acute Dermal LD50	Rabbit	2740 mg/kg
Oral LD50	Rat	1530 mg/kg
Potassium hydroxide (CAS 1310-58-3) Acute Oral LD50	Rat	273 mg/kg

Skin corrosion/irritation Causes skin irritation.

Serious eye damage/eye irritation Causes serious eye irritation.

Respiratory sensitization No data available.

Skin sensitization No data available.

Germ cell mutagenicity No data available.

Carcinogenicity This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

Reproductive toxicity No data available.

Specific target organ toxicity-single exposure May cause respiratory irritation.

Specific target organ toxicity-repeated exposure No data available.

Aspiration hazard No data available.

Chronic effects Prolonged exposure may cause chronic effects.

Further information No other specific acute or chronic health impact noted.

Safety Data Sheet

12. Ecological information

Ecotoxicity Toxic to aquatic life.

<u>Components</u>	<u>Species</u>	<u>Test Results</u>
Phosphoric acid (CAS 7664-38-2) Aquatic Fish LC50	Mosquitofish (Gambusia)	138 mg/l, 96 hours
Potassium hydroxide (CAS 1310-58-3) Aquatic Fish LC50	Western mosquitofish (Gambusia affinis)	80 mg/l, 96 hours

Persistence and degradability No data available.

Bioaccumulative potential No data available.

Mobility in soil This product is water soluble and may disperse in soil.

Other adverse effects No data available.

13. Disposal considerations

Disposal instructions Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.

Hazardous waste code Not regulated.

Waste from residues / unused products Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal.

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information

DOT Not regulated as a hazardous material by DOT.

IATA Not regulated as a dangerous good.

IMDG Not regulated as a dangerous good.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not established.

15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

US OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

CERCLA Hazardous Substance List (40 CFR 302.4)

Phosphoric acid (CAS 7664-38-2)	LISTED
Potassium hydroxide (CAS 1310-58-3)	LISTED

Safety Data Sheet

Superfund Amendments and Reauthorization Act of 1986 (SARA)

Hazard categories	Immediate Hazard - Yes Delayed Hazard - No Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No
--------------------------	---

SARA 302 Extremely hazardous substance	No
