

## **<u>1. Identification</u>**

Product identifier Other means of identification Synonyms Recommended use Recommended restrictions

#### Azential ZN Not available Zinc EDTA, Dipotassium salt\*Dipotassium Zinc EDTA Agriculture. Chelated Micronutrient. None known.

## Manufacturer/Importer/Supplier/Distributor Information

Company name Address	CHS Inc 5500 Cenex Drive Inver Grove Heights, MN 55077 US	
Telephone Website Contact person Emergency phone number	1-651-355-6000 www.chsinc.com EH&S/Regulatory Department CHEMTREC (24 hours): 1-800-424-9300	
2. Hazard(s) identification		
Physical hazards	Not classified.	
Health hazards	Not classified.	
OSHA defined hazards	Not classified.	
Label elements		
Hazard symbol	None.	
Signal word	None.	
<b></b>	The mixture does not meet the criteria for classification.	
Hazard statement	The mixture does not meet the criteria for classification.	
Hazard statement Precautionary statement	The mixture does not meet the criteria for classification.	
	The mixture does not meet the criteria for classification. Observe good industrial hygiene practices.	
Precautionary statement		
Precautionary statement Prevention	Observe good industrial hygiene practices.	
Precautionary statement Prevention Response	Observe good industrial hygiene practices. Wash hands after handling.	
Precautionary statement Prevention Response Storage	Observe good industrial hygiene practices. Wash hands after handling. Store away from incompatible material.	

## Supplemental information

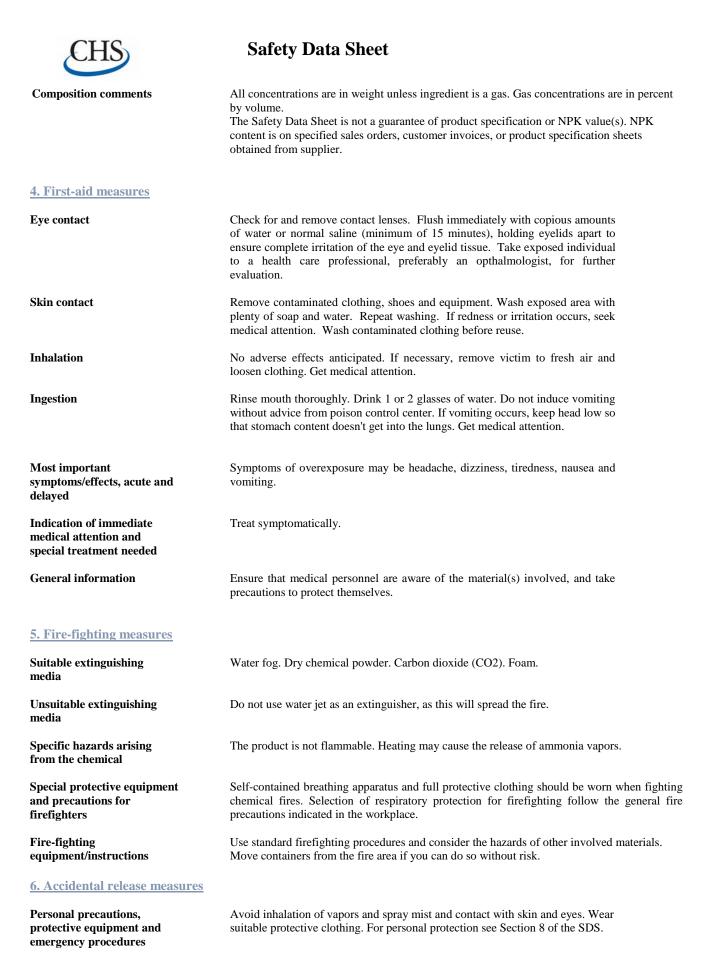

Not applicable.

## 3. Composition/information on ingredients

#### Mixtures

#### Non-hazardous components

Chemical name	CAS number	%
Ethylenediaminetetraacetic acid, zinc	25102-12-9	50 - 70
dipotassium complex		
Water	7732-18-5	balance

Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb with vermiculite, dry sand or earth and place into containers. After removal flush contaminated area thoroughly with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use.
Environmental precautions	Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers or watercourses.
7. Handling and storage	
Precautions for safe handling	Avoid inhalation of vapors/spray and contact with skin and eyes. Use only with adequate ventilation. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Keep container tightly closed. Store in a cool, dry well-ventilated place. Store away from incompatible materials.

### 8. Exposure controls/personal protection

Occupational exposure limits	No exposure limits noted for ingredient(s).	
<b>Biological limit values</b>	No biological exposure limits noted for the ingredient(s).	
Exposure guidelines	Follow standard monitoring procedures.	
Appropriate engineering controls	Provide adequate general and local exhaust ventilation. Observe Occupational Exposure Limits and minimize the risk of inhalation of vapors and mists.	
Individual protection measures such as personal protective equipment		
Eye/face protection	Wear approved safety glasses or goggles.	
Skin Protection Hand protection	Neoprene gloves are recommended. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier.	
Other	Wear appropriate clothing to prevent repeated or prolonged skin contact.	
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Wear air supplied respiratory protection if exposure concentrations are unknown. In case of inadequate ventilation or risk of inhalation of vapors, use suitable respiratory equipment. In the United States of America, if respirators are used, a program should be instituted to assure Compliance with OSHA 29 CFR 1910.134 and ANSI Z88.2.	
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.	
General hygiene consideration	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Handle in accordance with good industrial hygiene and safety practice.	

## 9. Physical and chemical properties

Appearance	Colorless to light amber liquid.
Physical State	Liquid.
Form	Liquid.
Color	Not available.

Odor	Bland.
Odor threshold	Not available.
рН	6.5 - 8.5 (neat)
Melting point/freezing point	Not available.
Crystallization Temp	<-18°F (<-26°C)
Initial boiling point and boiling	221 - 230°F (105 - 110°C)
range	
Flash point	Not available.
Evaporation Rate	Not available.
Flammability (solid, gas)	Not available.
Vapor pressure	0 hPa estimated.
Vapor Density (Air=1)	Not available.
Specific Gravity (H <sub>2</sub> O=1)	1.35 -1.36 @ 60°F
Solubility	Completely miscible.
Partition coefficient	Not available.
(n-octanol/water)	
Auto-ignition temperature	Not available.
Viscosity	Not available.
Other information	NA
<b><u>10. Stability and reactivity</u></b>	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Stable under normal temperature conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Heat. Extreme temperatures. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agent.
Hazardous decomposition products	Carbon oxides fumes (CO, CO <sub>2</sub> ). Nitrogen oxides and water vapor.
11 Towicelegical information	

## **<u>11. Toxicological information</u>**

## Information on likely routes of exposure

Ingestion Inhalation Skin contact Eye contact	May cause discomfort if swallowed. When heated, the vapors/fumes given off may cause respiratory tract irritation. Prolonged or repeated skin contact may cause irritation. May cause eye irritation on direct contact.
Symptoms related to the physical, chemical and toxicological characteristics	Eye and skin contact: Irritant effects. Ingestion: Headaches, nausea and vomiting.
Information on toxicological effects Acute toxicity	Not available.
Skin corrosion/irritation	Prolonged exposure may cause skin irritation.
Serious eye damage/eye irritation	Based on available data, the classification criteria are not met.
Respiratory sensitization	Based on available data, the classification criteria are not met.
Skin sensitization	Not a skin sensitizer.
Germ cell mutagenicity	Based on available data, the classification criteria are not met.

Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
Reproductive toxicity	Based on available data, the classification criteria are not met.
Specific target organ toxicity- single exposure	Based on available data, the classification criteria are not met.
Specific target organ toxicity- repeated exposure	Based on available data, the classification criteria are not met.
Aspiration hazard	Not classified.
Chronic effects	Prolonged exposure may cause chronic effects.
Further information	No other specific acute or chronic health impact noted.
12. Ecological information	
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data available.
Bioaccumulative potential	No data available.
Mobility in soil	This product is water soluble and may disperse in soil.
Other adverse effects	No data available.
13. Disposal considerations	
<b><u>13. Disposal considerations</u></b> Disposal instructions	Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.
Disposal instructions	all applicable regulations. The waste code should be assigned in discussion between the user, the producer and the
