

# ARMIS™·FI

## Fungicide and Insecticide Seed Treatment for Soybeans

### Key Performance Benefits

- Protection for the entire plant – Dual mode of action creates a complete zone of defense above and below ground.
- Protects against a wider spectrum – Protects against *Pythium* and *Phytophthora* species plus insects and other diseases.
- User-friendly treatment – Smooth flowability and low use rate ensures a consistent, even application and easy treatment experience.

### Compatibility

All slurry mixes should be pre-tested to determine physical compatibility between formulations. When slurry mixing, follow the most restrictive label instructions for any tank mix partner. DO NOT tank mix with any product that bears a label prohibition against slurry mixing. Compatible with most other seed treatment enhancement products and soybean inoculants.

### Active Ingredients

Ethaboxam  
Ipconazole  
Metalaxyl  
Clothianidin

### Formulation

Flowable Seed Treatment

### Chemistry Family

Thiazole Carboxamide, Triazole,  
Phenylamide, Nicotinoids  
FRAC no. 22, 3 and 4 IRAC 4A

### Signal Word

“Caution”

### Restricted Use

No

### Colored

Yes

### Protection Against

*Phytophthora sp.*  
*Pythium sp.*  
*Rhizoctonia sp.*  
*Fusarium*  
Seed and seedling decay  
Seed corn maggot  
Bean leaf beetle  
Wireworm  
Aphids

### Storage

Do not store at temperatures below 32°F. If the product is exposed to temperatures below 32°F, thaw at room temperature to 50°F or warmer and shake gently to unify the product.

### Application Directions

3.37 fl oz/cwt

### Product Weight/Gal

9.51 lb/gal

### Package Size

15 gal

Always read and follow label directions.
