

TRAPLOK™

Volatility Reduction Agent ■ Drift Reduction Agent ■ Water Conditioner

Principal Functioning Agents:

Acetic Acid, Potassium Hydroxide, 2-Hydroxy-1,2,3-propane tricarboxylic acid.....	57.5%
Constituents ineffective as a spray adjuvant.....	42.5%
Total	100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.

WARNING

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

Causes skin irritation. Causes serious eye irritation. May be harmful if swallowed. Read label before use. Keep container tightly closed. Keep only in original container. Do not eat, drink or smoke when using this product. Avoid inhalation, contact with eyes, skin or clothing. Wash hands thoroughly after handling and before eating, drinking, chewing gum or smoking tobacco.

Read Entire Label Before Using This Product

Personal Protective Equipment: Wear chemical resistant gloves, eye protection, long sleeved shirt, long pants and shoes.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. If eye irritation persists: Get medical advice or attention.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes.

IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

CHS Traplok™ is a drift and volatility reducing agent which contains patent pending technology designed to provide these benefits at a low use rate. CHS Traplok provides a surfactant and ammonium free water conditioning. It is designed for use with approved nozzles and pressures to meet the label requirements for mixing with approved dicamba products to be applied on dicamba tolerant crops.

DIRECTIONS FOR USE

CHS Traplok is intended for use with products registered for agricultural uses. Prior to use, read all directions on this label and labels of all pesticides, fertilizers and any other tank mix additives. Do not use with pesticide products that prohibit the use of an adjuvant.

When using CHS Traplok along with dicamba in dicamba tolerant crops, review the website associated with the relevant dicamba containing product for any additional tank mix instructions.

MIXING: Begin by filling a thoroughly clean sprayer ¾ full with clean water. Maintain agitation throughout mixing and application. Add CHS Traplok to the spray mixture first and allow it to disperse prior to adding the pesticide(s) and then remaining water. Be sure to allow sufficient time for mixing prior to application.

Use rate as a Surfactant, Water Conditioning Agent, Drift and Volatility Reducing Agent with Dicamba

Tank Mixes: The typical use rate for CHS Traplok is 1% v/v (19.2 oz/A when total spray volume is 15 gallons per acre). Actual use rate may vary based on pesticide label directions and/or tank mix rate instructions on the relevant website for the tank mixed dicamba pesticide.

Use rate as a Surfactant, Water Conditioning Agent and Drift Reducing Agent in Non-Dicamba

applications: Use CHS Traplok at 1% v/v or according to pesticide label and/or tank mix website instructions.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool, dry place. Store in original container only. Protect from excessive heat. Do not store above 40 degrees C for extended periods of time. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

Conditions of Sale and Warranty Limitation: The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of CHS Inc. or the seller. All such risks shall be assumed by the buyer. CHS Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. CHS Inc. makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall CHS Inc. or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. CHS Inc. and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of CHS Inc.
