CONDITIONS OF SALE - LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES: Read the Conditions of Sale - Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions of this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of CHS Inc., the manufacturer or seller. In addition, failure to follow label directions may cause injury to crops, animals, workers or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind express or implied concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at CHS Inc.'s election, one of the following: 1) Refund of the purchase price paid by buyer or user for product purchased, or, 2) Replacement of the product used, to the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company, the manufacturer and seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.

General Information

CHS WHEELHOUSE PRO is a water conditioning agent formulated to enhance pesticide performance by modifying the hardness of spray water. **CHS WHEELHOUSE PRO** imparts a neutral pH. **CHS WHEELHOUSE PRO** can reduce antagonism of the spray tank caused by hard water minerals such as calcium, iron & magnesium. **CHS WHEELHOUSE PRO** improves spray droplet spreading, deposition and penetration into the targeted leaf surface. **CHS WHEELHOUSE PRO** provides humectancy to spray droplets resulting in a slower drying time for enhanced uptake of active ingredients. **CHS WHEELHOUSE PRO** can be used for a wide range of pesticide & nutrient spray mixtures when accompanying labels recommend water conditioners and spreader-wetter adjuvants.

CHS WHEELHOUSE PRO IS NOT FOR AQUATIC USE.

First Aid

Call a poison control center or doctor immediately for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

IF SWALLOWED: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

IF INHALED: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

IF ON SKIN OR CLOTHING: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

Directions For Use

For use with herbicides registered for use for agriculture, forestry, industrial, municipal, ornamental, turf, right-of-way, non-cropland, and other uses. Prior to using **CHS WHEELHOUSE PRO**, the user must have experience with the combination of active ingredients or must have conducted a phytotoxicity trial.

Use Rates

CHS WHEELHOUSE PRO may be applied by ground, CDA or aerial spray equipment.

Ground/Aerial: Use 1 to 4 quarts per 100 gallons of spray mixture (0.25% v/v to 1.0% v/v). Do not use this product at a rate to exceed 2.5% v/v of finished spray tank mixture.

Water Hardness (ppm)	Use Rate/100 Gallons
<200	1 quart
200-400	2 quarts
400-600	3 quarts
>600	4 quarts

Tank Mixing

Prior to any pesticide application, all spray equipment must be thoroughly cleaned. Carefully observe all tank cleaning directions on the pesticide label. Follow the mixing order on the pesticide label.

If the mixing order is not clear, follow the following mixing instructions: 1) Fill the spray tank 1/2 full with water; 2) Add any dry formulations to the spray tank and allow to disperse completely into solution; 3) Continue to add other pesticides and ingredients, including **CHS WHEELHOUSE PRO**, consistent with respective label directions. It is preferable, but not required, to add **CHS WHEELHOUSE PRO** prior to adding the glyphosate herbicide. Do not mix **CHS WHEELHOUSE PRO** with undiluted herbicides.
