

# LAST CHANCE® PRO

Nonionic Surfactant ▪ Water Conditioner

## Principal Functioning Agents:

N-methyl-alkyl glucamide, polyethylene glycol monolaurate, polyethylene glycol undecyl ether . . . . .	77.95%
Constituents ineffective as a spray adjuvant. . . . .	22.05%
<b>Total . . . . .</b>	<b>100.00%</b>

All ingredients are exempt from tolerance under 40 CFR 180.

**DANGER**

**KEEP OUT OF REACH OF CHILDREN**

## PRECAUTIONARY STATEMENTS

Causes skin irritation. Causes serious eye damage. Read label before use. Keep container tightly closed. Keep only in original container. Do not eat, drink or smoke when using this product. Avoid breathing vapors or spray. Wash hands thoroughly after handling. Wear protective gloves, protective clothing, eye protection and face protection.

**Read Entire Label Before Using This Product.**

## PERSONAL PROTECTIVE EQUIPMENT

Wear protective gloves/protective clothing/eye protection/face protection.

## FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. IMMEDIATELY SEEK MEDICAL ATTENTION.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes.

**IF SWALLOWED:** Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

**IF INHALED:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

## GENERAL INFORMATION

Last Chance® Pro meets the surfactant level requirements of most active ingredient labels in the industry that require or recommend the use of a nonionic surfactant (NIS).

Last Chance Pro significantly improves uniform coverage, adhesion and penetration of the active ingredient through waxy or weather hardened cuticles. Last Chance Pro is formulated with an AMS-FREE water conditioner which helps to prevent the loss of active ingredient efficacy that can occur when the mixing water is mineral saturated or of unknown quality.

Recommended for use with a broad range of crops and noncrops when tank mixing active ingredients like glyphosate, glufosinate, dicamba and 2,4-D. A defoamer is included for easier mixing.

## DIRECTIONS FOR USE NOT FOR AQUATIC USE

Follow the instructions on the most restrictive active ingredient label. Tank mixtures should only be applied within the label recommendations of every product in the tank mixture. Caution should be used when applying this or any other product on crops during hot, dry conditions. Though phytotoxicity has been evaluated, care should be taken by conducting a jar test or testing this product on sensitive plants before full application is performed.

## Order of addition

Prior to mixing, fill the spray tank with half of the carrier. Start the sprayer and check to make sure that all valves and gauges work and that there is adequate tank agitation.

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Wettable Powders (WP) then Flowables (F, DF)
2. Agitate then add anti-foaming compounds or buffers
3. Liquid and Soluble products
4. Emulsifiable concentrates (EC)
5. Last Chance Pro

## USE RATE

**Herbicides:** 0.5 to 6 pints per 100 gallons.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**Storage:** Store in a cool, dry place. Store in original container only. Protect from excessive heat. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. Shake well before using.

**Disposal:** Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org). Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

**Conditions of Sale and Warranty Limitation:** The directions for use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of CHS Inc. or the seller. All such risks shall be assumed by the buyer. CHS Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. CHS Inc. makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall CHS Inc. or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. CHS Inc. and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of CHS Inc.
