

N-ERTIA™ 26

FEATURES AND BENEFITS

Need description

- Highly effective source of foliar slow release nitrogen in a low salt formulation for excellent plant safety.
- Supplements and increases nitrogen efficiency in the plant.

ACTIVE INGREDIENTS

- Total Nitrogen (N).....26%
 - 17.4% Urea Nitrogen
 - 8.60% Other Water Soluble Nitrogen

Derived from: Urea and Urea-Triazone Solution

APPLICATION DIRECTIONS

- Use in accordance with recommendations of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

COMPATIBILITY

N-Ertia 26 is completely water soluble and can be custom blended with other primary, secondary and micronutrients as well as many crop protection chemicals. In the absence of published data, check compatibility by performing a jar test prior to tank mixing. N-Ertia 26 should not be blended with strongly acidic materials.

N-Ertia™ 26 contains a low salt, highly efficient source of nitrogen that is intended to improve nitrogen use efficiency while increasing crop yields. This formula may allow for more complete and rapid nitrogen absorption while aiding in the uptake and translocation of other tank mixed nutrients.

N-Ertia 26 may be applied as a foliar spray on a wide array of agricultural crops to correct nitrogen deficiencies and/or improve growth.

N-Ertia 26 contains 2.6 lb of nitrogen per gallon.
