

## GUARANTEED ANALYSIS

Total Nitrogen (N).....	7.0%
5.3% Ammoniacal Nitrogen	
1.7% Urea Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ).....	23.0%
Soluble Potash (K <sub>2</sub> O).....	5.0%
Molybdenum (Mo).....	0.001%
0.001% Water Soluble Molybdenum (Mo)	
Derived from: Anhydrous Ammonia, Phosphoric Acid, Potassium Hydroxide and Urea, Sodium Molybdate.	
CAUTION: This fertilizer is to be used only on soil which responds to Molybdenum (Mo). Crops high in Molybdenum (Mo) are toxic to grazing animals (ruminants).	

## PROPERTIES

Weight per Gallon (lbs. at 68°F).....	11.1
Equilibrium Temperature.....	12°F
pH.....	6.4

## RECOMMENDATIONS FOR SEED ROW PLACEMENT

Crop	Soil Conditions				
	CEC: 15 or > OM <sup>2</sup> : 2.5% or >	CEC: 12 - 14.9 OM: 2.0 - 2.4 %	CEC: 6 - 11.9 OM: 0.6 - 1.9%	CEC: < 6.0 OM: < 0.6%	
Maximum suggested application rate in gallons per acre					
<b>Corn Row Spacing:</b>					
15"	10	8	6	0	
20-22"	7.5	6	4.5	0	
30"	6	5	4		
<b>Canola</b>	6	6	5	Inquire about row application in soils that fall within this group.	
<b>Cotton</b>	4	3	3		
<b>Milo (30" rows)</b>	5	4	3		
<b>Soybeans Row Spacing:</b>					
10" or less	5	4	3		
11" to 16"	2.5	2.5	2.5		
17"+ *	3	2	2		
<b>Barley, Wheat, Rye</b>	12	12	10		
<b>Oats</b>	6	5	4		
<b>Sunflower</b>	4	3	3		
<b>New Alfalfa</b>	6	5	4		
<b>Potatoes</b>	7	7	7

## GENERAL INFORMATION

XLR-rate® 7-23-5 starter and foliar fertilizer is manufactured using raw materials including Phosphoric Acid, Potassium Hydroxide and Urea providing a quality, effective source of macronutrients. Our products contain orthophosphate that is soluble and readily available for young, emerging plants to utilize.

XLR-rate® 7-23-5 maximizes nutrient efficiency for your crop and ensures:

- Improved nutrient solubility
- Lower salt index, flexibility for row placement
- Less equipment corrosion and cleaner tanks, screens, pumps
- Plant safety with maximized uptake improving emergence
- Flexible planting window under cold/wet conditions
- A balanced approach to nutrition that improves ROI

## DIRECTIONS FOR USE SOIL APPLICATION

XLR-rate® 7-23-5 can be applied to crops by banding in or near the seed row, surface dribble, strip-till, bed placement, irrigation or by other methods. Follow label instructions or use in accordance with recommendations of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations of an approved nutrient management plan.

When XLR-rate® 7-23-5 is applied in the seed row (directly on the seed) certain crop and rate restrictions apply. Until local experience is gained, refer to the following table for crop and suggested maximum rate instructions. The use of available "splitter" devices that apply fertilizer to the sides of the v-slot is encouraged. Do not apply directly on the seed in saline, alkali, salty or coarse-textured soils. Seed row placement is not recommended for crops not listed in the Recommendations for Seed Row Placement table.

## PRODUCT STORAGE RECOMMENDATIONS

Storage is recommended in poly, fiberglass, stainless, or lined/coated steel tanks. Storage in flat bottom tanks during winter months is suggested. It is important to agitate/recirculate prior to usage. Ensure that tanks are sanitized prior to filling with XLR-rate® products. Do not blend and allow other products to store with XLR-rate®.

## FOLIAR APPLICATION

**Vegetable and Field Crops, Deciduous Fruit and Nut Trees, Grapes, Olives and Citrus:** Apply 1 to 3 gallons per acre in a minimum of 5 gallons of water per acre. Repeat applications may be beneficial. Use of a surfactant may enhance leaf coverage and increase nutrient absorption. Do not apply when the crop is excessively stressed for moisture or during periods of high temperatures. Use the lowest possible volume for thorough coverage with a small droplet size. Optimum foliar application conditions for most crops generally occur during early morning or late evening hours.

*Foliar fertilization with primary nutrients will not provide the quantities of nutrients required for normal plant growth. This product may cause foliar burn if applied in higher than recommended rates or concentrations. Use only as a supplement to a regular fertilization program.*

## BENEFITS OF FOLIAR APPLICATIONS

Foliar feeding provides an effective method to provide macro and micronutrients to crops during growth stages. XLR-rate® supplies quality N-P-K for maximum crop absorption improving recovery from stress and making quality growth better from vegetative to reproductive stages in the plant.

- Efficient use of nutrients that translocate to new growth
- Reduction in drought and metabolic stressors
- Low cost, nutrient management that benefits ROI
- No foliar burn

## MIXING INSTRUCTIONS

If mixing XLR-rate® 7-23-5 with other nutrient or CPP products, perform a jar test to ensure compatibility with different mixtures of chemicals. It is important to read and follow label directions of added products to ensure that pH, S.I., blending, and application integrity are maintained.

## MIXING PROCEDURE

- XLR-rate® 7-23-5 disperses well in water with a minimum of agitation. For best results mix as follows:
1. Partially fill tank with water or fertilizer and start agitation.
  2. Add XLR-rate® 7-23-5 to circulating tank mix.
  3. Add other pesticides or nutrients if compatible.
  4. Fill tank and agitate thoroughly.

## WARNING HAZARD STATEMENT

May cause skin and eye irritation.

## PRECAUTIONARY STATEMENT

Wear protective gloves and clothing. Do not breathe mists/vapors. Seek medical attention if you feel unwell. Wash thoroughly after handling. Use only outdoors or in well-ventilated areas. Do not eat, drink or smoke when using product. If swallowed: Seek medical attention if unwell. Remove contaminated clothing and wash before reuse. If in eyes or on skin: Rinse area with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. If eye or skin irritation persists, seek medical attention.

## FIRST AID MEASURES

**INHALATION:** Remove person from location and move them to a more comfortable breathing area. If feeling unwell: Seek medical attention.

**EYES:** Hold eyelids open and flush with a steady stream of water for 15-20 minutes. If irritation persists: Seek medical attention.

**SKIN:** Wash affected area with soap and water. If irritation persists: Seek medical attention. Remove contaminated clothing, wash before reuse.

**INGESTION:** Rinse mouth. DO NOT INDUCE VOMITING unless directed by a medical professional. Seek medical attention if unwell.

**Emergency Phone:** Chemtrec 1-800-424-9300 (24 hours a day)
